ProWhite W

Special synthetic tannin for polymer tanning

TYPICAL PROPERTIES

Appearance	: White powder
Active Substance	: $95 \pm 1\%$
pH (10% sol.)	: 3.5 ± 0.5
Ionic Character	: Anionic

DESCRIPTION

ProWhite W is a special syntan advocated for the usage of white and metal-free leather tanning systems at the pretanning or main tanning process phases. It is compatible with other syntans, vegetable extracts, fatliquors and dyestuffs. The pretanning process should start after bating process with the usage of **ProWhite PL** and afterwards the addition of **ProWhite W** is necessary for obtaining optimum and required results.

APPLICATION

8 - 10% **ProWhite W** can be given for suitable results in the pre-tanning with **ProWhite PL**. The usage of 6 - 10% **ProWhite W** is also possible in tanning or retanning processes of different leathers.

PACKAGING, STORAGE AND SHELF LIFE

Available in 25 kg bags. Store in accordance with local regulations. Keep the lid closed when not in use. Store in a dry place and protect from direct sunlight. Shelf life is 24 months from the date of manufacture when stored in its original package. For more information see Safety Data Sheet.
