UNICAL KG

Mixture of organic acids for delimiting

TYPICAL PROPERTIES

Appearance	: White powder
Active Substance	: $98 \pm 1\%$
pH (10% sol.)	: 6.0 ± 1.0
Ionic Character	: Anionic

DESCRIPTION

UNICAL KG is a mixture of non-swelling organic acids. It has a rapid and regular delimiting action on hides and can be used for both long and short float systems. The dosage of **UNICAL KG** depends on several parameters, such as the content of alkaline products, thickness of the pelt, the desired delimiting degree, and the duration of the washing operation. **UNICAL KG** can be used in combination with other delimiting salts, such as ammonium sulphate and ammonium chloride.

APPLICATION

Recommended quantity for sheepskin-garment is 1.0 – 2.0%; for cow/cattle hides for shoe-upper is 1.5 – 2.5%; for goat-lining is 1.0 – 1.5% on limed-pelt weights.

PACKAGING, STORAGE AND SHELF LIFE

Available in 25 kg bags. Store in accordance with local regulations. Keep the package closed when not in use. Store in a dry place and protect from direct sunlight. Shelf life is 24 months from the date of manufacture when stored in its original package. For more information see Safety Data Sheet.
