

# UNIOIL ST

Synthetic sulphited softener

## TYPICAL PROPERTIES

Appearance : Milky liquid  
Active Substance :  $50 \pm 1\%$   
pH (10% sol.) :  $7.0 \pm 0.5$   
Ionic Character : Anionic

## DESCRIPTION

**UNIOIL ST** is a multipurpose softening agent for different types of leathers and especially for double-face, resulting with supple and soft leathers. It can be applied at a wide pH range such as, in pickling, in tanning and in retanning due to its good electrostability against different agents. **UNIOIL ST** outstands with its excellent penetration capacity without creating greasy hair in double-face productions. It is compatible with all post-tanning agents such as syntans, resins and dyestuffs.

## APPLICATION

**UNIOIL ST** is recommended for fur-skin and double-face 1 – 2 g/l in pickling; 2 – 3 g/l in chrome tanning; 2 – 4 g/l in fatliquoring process. **UNIOIL ST** gives satisfactory results for softy-upper and lamb-suede-garment leathers.

## PACKAGING, STORAGE AND SHELF LIFE

Available in 120 kg drums or in IBC. Store in accordance with local regulations. Keep the lid closed when not in use. Store in a dry place and protect from direct sunlight. Shelf life is 12 months from the date of manufacture when stored in its original package. For more information see Safety Data Sheet.
