

UNIOIL LL

Softener based on lanoline and lecithin mixture

TYPICAL PROPERTIES

Appearance : Yellowish brown paste
Active Substance : $50 \pm 1\%$
pH (10% sol.) : 7.0 ± 0.5
Ionic Character : Anionic

DESCRIPTION

UNIOIL LL is a perfectly emulsified mixture of softener having strong lubrication properties and advocates as a main softener for many types of leather products. **UNIOIL LL** is resistant to a wide pH margin variation and hence proposed for vegetable and special leather productions. The leathers obtained have good softness, waxy handle, low specific weight and high light fastness properties. **UNIOIL LL** is compatible with all types of softeners and auxiliaries used in post-tanning processes.

APPLICATION

UNIOIL LL is recommended as 2 – 4% for vegetable calfskin; 2 – 6% for sheep-garment and 4 – 6% for wet-white tanned special treated leathers.

PACKAGING, STORAGE AND SHELF LIFE

Available in 120 kg drums or in IBC. Store in accordance with local regulations. Keep the lid closed when not in use. Store in a dry place and protect from direct sunlight. Shelf life is 12 months from the date of manufacture when stored in its original package. For more information see Safety Data Sheet.
